About this listing

GOLD IS THE REAL MONEY! INVEST IN GOLD NOW! @ Indonesia !!!

About Project :

Invest into 1,972 Hectares... Gold and Silver... Indonesia Offshore Concession... under a Joint Venture... with 50% Profit Sharing!

WE OWN THE LARGEST INDONESIA OFFSHORE GOLD CONCESSION...
GOLD HIT HIGHEST PRICE EVER ~ USD $160,715 PER KG!

THE PROBLEM

FIAT Currencies are backed by Debt... the Global Debt reached USD $102 Trillion in 2024... shortly, FIAT Currencies will be replaced by Crypto
Currencies backed by Gold as part of the New Gold Standard Strategy... there is a shortage of Gold Bullions in circulation...

THE SOLUTION

We own and operate a 1,972 hectares offshore Gold concession in Indonesia... we can progressively produce from 800 kg up to 4,000 kg of Gold
bullions 24 Karat and 99,99% purity per year, over a period of 10 years... the sand containing Gold is located 1 meter under water, which drastically
reduces the extraction and processing costs, thus creating a very attractive Net Profit...

MARKET VALIDATION

In April 2025... Gold hit USD $100,504 per kg, for a gain of 19% since the start of the year and a hefty 71% rise since the end of 2022...
Central Banks bought a record 1,136 tons of Gold in 2022... more and more Accredited Investors are investing in Gold...

MARKET SIZE

There are 222 central banks worldwide buying more than 1,100 tons of Gold Bullions per year... or USD $1 Trillion per year...
there are 24,000,000 accredited investors in the USA alone, they control USD $109 Trillion in wealth and they are starting to invest

in Gold due to economic uncertainties...

GOLD PRODUCT

Dredging of the sand containing Gold at the offshore concession...
Sale of Gold Bullions to central banks and accredited investors...
Refining of the Gold Bullions to 24 karat and 99,99% Purity...
Processing to separate the Gold from the sand...

MINING COMPETITION

Disadvantages of Gold Mining
Environmental damage – Gold mining can harm nature, destroying landscapes and habitats for animals, causing problems for ecosystems...
Water pollution – Mining releases toxic substances into rivers and lakes, which can kill fish and affect water quality...
Health hazards for miners – Workers digging for gold can face dangerous conditions, leading to illness and injury...
Expensive and energy-intensive – Extracting gold requires a lot of money and power, using up resources and contributing to pollution...
Displaces communities – People living near gold mines might have to move away, losing their homes and disrupting their way of life...

COMPETITIVE ADVANTAGES

Advantages of Offshore Gold Mining
Environmentally friendly – Offshore Gold mining doesn’t harm nature, doesn’t destroy landscapes and habitats for animals, and doesn’t
cause problems for ecosystems...
No pollution – Offshore Gold Mining doesn’t release any toxic substances into the sea...
No health hazards for workers – Workers do not face any dangerous conditions, leading to illness and injury...
Cheap and low energy – Dredging sand containing Gold is extremely cheap and doesn’t require lot of energy, compared to Onshore Gold Mining...
No Displacement of communities – As Offshore Gold Mining is done at sea, there is no displacement of communities...

BUSINESS MODEL

In 10 years... our Cumulative Net Profit will reach USD $5,005,580,285 based on sale of 24,000 kg of Gold bullions...
In 2026... our Net Profit will reach USD $80,896 per kilo of Gold Bullion sold...
In 2035... our Net Profit will reach USD $309,222 per kg of Gold bullion sold...

JOINT VENTURE

The Private Investor shall bring USD $110 Million Equity Funding in exchange of 50% Net Profit...
We plan to establish a Joint Venture between PT GMC and a Private Investor...
PT GMC will bring the Gold Concession in exchange of 50% of the Net Profit...

CONCLUSIONS

We are seeking a Private Investor that would bring USD $110 Million Equity Funding in exchange of 50% Net Profit.. generated by the sale
of Gold bullions in the next 10 years, or USD $2,502,790,143...
We own a 1,972 hectares offshore Gold Concession and we can provide 24,000 kg of Gold bullions in the next 10 years...
The international price of Gold has reached USD $160,715 per kg, in May 2026...
There's a huge demand for Gold from central banks and accredited investors...
There is a shortage of Hallmark Gold Bullions in circulation...
