In Association with Germany–India
Pioneering Healthcare Excellence

Investment : $ 130 Millions

The First Installation of IV Fluids and Dialysis in the Sultanate of Oman.

COMPANY OVERVIEW & KEY HIGHLIGHTS

About Us

Pharmaceutical Company operates a state-of-the-art sterile parenteral manufacturing facility
dedicated to treating critically ill patients by providing high-quality, affordable life-saving products globally.

Infrastructure:
Total Land Area: 20,351 Sqm | Total Building Area: 8,451 Sqm

Quality Standards:

Designed in strict compliance with current Good Manufacturing Practices (cGMP)
and MOH Oman standards.

Advanced Technology:

Equipped with Form-Fill-Seal (FFS) lines from Plumat Germany (the global leader) ensuring absolute process reliability and top-class sterile packaging.

PRODUCTION CAPABILITY & INFRASTRUCTURE

High-Volume Automated Lines (Phase 1)
Intravenous (I.V.) Fluids Production: 2,400 Bags per hour (15 Million Bags / Year Capacity)
Haemodialysis (HD) Solutions Production: 360 Jerricans per hour (1.8 Million Jerricans / Year Capacity)

Salient Manufacturing Features:

Advanced cleanroom classifications (Class A environment for filling and exposure areas).

Patented SFC Ports technology sourced exclusively from Europe.
100% rigorous automated and manual visual inspection testing.

CORE PRODUCT OFFERINGS

Life-Saving Intravenous Solutions & Therapeutics:
Basic Rehydration & Electrolytes: Sodium Chloride 0.9%, Dextrose 5% & 10%, Lactated Ringer's Solution, and Ringer Solution.
Specialized Infusions: Mannitol 10% (Cerebral Edema).
Anti-Infectives & Antibiotics: Metronidazole, Ciprofloxacin, and Ornidazole Infusions.

Analgesics & Antifungals: Paracetamol and Fluconazole Infusions.

Renal Care Product Lines:

Haemodialysis Solution HDA (5 Liters): Premium-grade formulation engineered for highly efficient toxin diffusion during critical kidney dialysis treatments.
